

**WANTED!**  
Marietta Middle School Students  
to participate in  
2010 Fall Cross Country  
Girls and Boys

Cross country is a fall **team** sport. Teams train and compete on grass courses and trails. The competition distance is 2 miles. We work up to these distances **gradually**. By the end of the season running this distance will be easier than falling out of bed.

Middle School cross country is one of Marietta's **best and brightest** sports traditions.

**Everyone competes at every meet** as long as you are healthy and come to practice. **There is no bench. There is no "pine time."**

Running cross country is **fun and challenging**. Everyone has the **opportunity to compete**.

Our competitive season begins about the same time school starts and lasts for two months. We practice four or five days a week. Meets are on Saturdays. This year we will travel to **Lancaster, Pickerington** and **Columbus** for competition. We travel far and wide to seek the **best competition**.

Not convinced yet? Talk to anyone in the Middle School or at the High School who runs cross country.

Check us out at **[mariettaxc.com](http://mariettaxc.com)**!

Watch for an announcement about our spring call out meeting.

Please come and visit us.

**MARIETTA TIGER CROSS COUNTRY**

**Marietta Middle School Cross Country**  
**Girls & Boys**  
**2010**

- Q: What is cross country ("XC")?
- A fall team sport.
  - Team running on grass and trails
    - 5 kilometers (3.1 miles) for high school
    - 2 miles or 3 kilometers (1.8 miles) for middle school
  - A chance to run through MUD PUDDLES without getting yelled at.
  - A collection of bright, energetic and talented students who have a lot of fun every fall.
  - ONE OF MHS' AND MMS' BEST AND BRIGHTEST SPORTS TRADITIONS:  
Accomplishments in last 16 years:
    - 10 Academic all-Ohio Honors
    - 16 State individual qualifiers
    - 19 all-regional honors
    - 12 boys' team regional qualifiers
    - 12 girls' team regional qualifiers
    - 18 all-regional honors
    - 8 team Southeast/East District champ titles
    - 72 girls Southeast/East all-District honors
    - 75 boys Southeast/East all-District honors
    - 7 girls Northeast all-District honors
    - 5 boys Northeast all-District honors
    - 11 boys' SEOAL Champ titles (including 2001-2005 & 2007)
    - 10 girls' SEOAL Champ titles (including 2001-2005, 2007 & 2009)
    - 62 boys all-SEOAL honors
    - 50 girls all-SEOAL honors
    - more all-SEOAL all-academic awards than we can count
  - 2009 records: Girls – 85W - 39L (12W - 0L SEOAL) 2010 League Champions  
Boys – 72W - 74L (5W - 7L SEOAL) Alex Wesel: League Ind. Champion
  - Wood-Washington County Overall Champions: 2001-2009
- Q: Why run cross country?
- Cross country runners are a breed apart.
  - Lots of individual medals and team trophies.
  - NO PINE TIME: EVERYBODY COMPETES.
  - Be part of a winning tradition.
  - A chance to run through MUD PUDDLES without getting yelled at.
  - Plain old FUN.
  - Be fit and trim.
- Q: Who runs cross country?
- Special people.
  - Short, tall or in-between.
  - The only size that counts is the size of your heart.
  - MHS: 9th - 12th
  - MMS: 7th and 8th
- Q: Where do I find out more?
- A May call-out of interested students will be announced at school. If you can't make a call-out, call Coach Dale Leeper (373.5455) or Coach Larry Cassady (374.5876).

## **MXC Collegiate Runners 1994 - 2010**

### **Division 1**

Rory Arnold - Miami of Ohio, 1995  
Kurt Leeper - Colgate University, 1995 (Academic All-American)  
Van Arnold - Virginia Tech, 1996  
Danny Carlson - Sacramento State University, 2005  
Megan McCauley - Bowling Green State University/University of Cincinnati, 2005  
Scott Grose - Sacramento State University, 2006  
Mark Wieferich - The Ohio State University, 2009

### **Division 2**

Kara Ulmer - University of Rio Grande (NAIA), 1994  
Lori Ulmer - (Michigan College) (NAIA), 1996  
Bekah Lehman - Ashland University, 2007  
Taylor Vernadoe - Wingate University, 2010

### **Division 3**

Kristo Kriechbaum - Carnegie Mellon University (Academic All-American;  
All-American in Track), 1995  
Drew Piersall - Case Western Reserve University  
Sonia Schoolcraft - Washington & Jefferson College, 2000  
Daniel Berentz - Ohio Wesleyan University  
Katie Wieferich - College of Wooster, 2003 (Academic All-American; All-American  
in Track (4-time); All American in Cross Country)  
Nathan Malcomb - College of Wooster, 2003  
Nick Brancato - Northland College, 2003  
Heather Stalter - Mount Union College, 2006  
Jacob Malcomb - St. Lawrence University, 2006  
Leah Miracle - Hiram College, 2006  
Andy Guimond - Marietta College, 2008  
Annalea Thompson - Central College, 2008  
Gillian Rossi - Hendrix College, 2009  
Casey Morris - Waynesburg University, 2009

**MARIETTA CROSS COUNTRY FALL 2010  
NEW RUNNERS INFORMATION SHEET  
(FOR RUNNERS AND PARENTS)**

**Welcome!**

You are now part of the Marietta Tiger/Marietta St. Mary's Cross Country family. Cross Country ("XC" for short) is a fall sport that offers the unique experience of running over varied terrain in team competition.

We hope that you will enjoy your involvement. We want you to reach your full potential as a student, athlete and citizen, and enjoy the cross country experience.

- **Caveat For Parents:**

Cross country is not a particularly controlled sport. Unlike games such as basketball, football, baseball or soccer, our competitive arena is likely to encompass several square miles and our practice venues are much larger. Every day a runner practices he or she is exposed to the hazards of the outdoors: runners can slip and fall, trip, stumble or otherwise come into contact with all that nature has to offer, including unfriendly flora and fauna. Running along roads and through city streets presents a different set of risks and challenges. Your student's coaches care for the well being of their young charges, but we cannot insure their absolute safety. It is not a perfect world out there.

That said, running injuries are typically of the overuse variety, and can often be addressed by relative rest and rehabilitation. We don't see torn ACLs or damaged meniscii. We occasionally see aggravations of such injuries, but running is typically not the root cause.

- **Our Philosophy:**

Running should be a joy. Using nothing more than our bodies to propel ourselves through space is as close to natural flight as we can come. We want our runners to share this joy.

Running also is a disciplined sport: you practice, and build on each practice, to improve yourself. A runner is an investor: the greater your effort and investment in yourself, the greater will be your ability to draw on that investment and enjoy the returns. While natural ability confers some advantage, ability alone is of little value in cross country. It must be developed through an investment in training.

We believe that athletics should be a positive experience: little is to be gained, and much can be lost, by a negative approach.

Marietta's cross country coaches are runners. That gives us a valuable perspective on our team members. We never ask our runners to do anything that we ourselves have not done many times over.

We are very proud of our program's accomplishments and equally proud of the efforts of each and every one of our participants, including our many alumnae who have previously or are currently competing at the collegiate level.

- **Our Home:**

Through the good graces of The Broughton Foundation and the Broughton family, our home course and primary practice venue is The Broughton Nature & Wildlife Recreation Area. It is located 7/10ths of a mile north of State Route 60 on State Route 821. Left at the flagpole/building complex, then left to the pavilion. The area is generally open to the public and has miles of wonderful trails for walking and hiking.

- **Our Heritage:**

Many Marietta Tigers have competed at the collegiate level. Many more have completed marathons, biathlons, triathlons, road races and other athletic challenges, and have made running a part of their lives. Each and every former Tiger Cross Country runner has contributed to the culture and tradition of this program, just as you will in your own time and fashion.

- **Academics:**

Our primary focus is academics; our secondary focus is athletics. Our experience is that participation in a program such as this typically enhances the academic aspects of our athletes' lives. As coaches, we are, first and foremost, teachers and we take our roles seriously. Our students qualify for many academic honors every year and many will be found at or near the top of their classes.

**Did You Know :**

Running is the number one participatory sport in the nation for college, high school and middle school students?

- **Goals of Marietta Tiger Cross Country**

- to foster individual growth and development, both within and outside of athletics
- to promote a love for running, as a lifetime pursuit
- to achieve success
- to experience failure, and to learn and grow from it

- **2010 Summer Training Schedule:**

**There is no substitute for summer mileage.** All serious runners know that. Ask one. Summer running is the foundation for our fall training and competition, and it provides valuable insurance against injuries.

Our daily practices begin Monday, August 9th. Our first competition will be the Elizabeth S. Broughton Memorial Cross Country Invitational, to be held on our home course on Saturday, August 28th. It will give you an opportunity to measure your progress and to experience the joy of competitive cross country running.

Daily practices are only days away. Cross country runners know that championships are won in June, through the diligence of regular running. The championship may be held in October or November, but its outcome is determined over the course of the summer.

As you will see from our summer meeting schedule we will meet over the summer. These meetings will be an opportunity for you to pose questions about running and training, to make new friends and to have fun.

Between these meetings, you will be running on your own. The summer training schedule is a guide.

Depending upon your experience and prior activities you may find that the suggested level is too easy or too difficult. Talk to your coaches. Don't be bashful.

The suggested runs are in minutes. All you need are good running shoes and a stop watch, and an awareness of the world around you, especially traffic.

One of the great things about running is that you can do it almost anywhere, at any time. Family vacations, camp, work, and other summer commitments will allow you to experience running in different places, at different times. After all, a summer run requires only four things: 1) shoes, 2) shorts, 3) a watch, and 4) you.

- **Gear:**

We'll talk about running gear, but here are the essentials: each athlete needs a running watch--it must have a stop watch function; avoid cotton socks, they absorb water (we all sweat when it's hot!) and cause blisters; and wear good shoes--shoes made for running, not cross-training, and replace them when needed. It's great to have two pair so you can rotate them. Socks should be Coolmax®, Supplex® or a similar cotton/polyester/nylon blend. The same holds true for shirts and shorts: synthetics are much better than cotton in heat and rain (including cold rain--but that's an issue for the fall). Wear caps and use sunscreen when it is sunny. Bring water, a towel, a dry shirt, and dry shoes (flops are fine) to every practice.

- **Summer Meetings:**

We will run together, talk about how your summer training is progressing, answer questions about training, workouts and whatnot, have some presentations and have some fun.

- **Daily Practices :**

Daily practices will begin Monday, August 9th. Most of our practices will be held at the Broughton Nature & Wildlife Recreation Area, our home. Beginning in mid to late August we will have one practice a week on the bike path in Marietta. We meet at Indian Acres. We have several practices a year at Washington State. Our annual mud day celebration and practice is held at the Career Center. Practices vary in length but once we get into the season the length of each will be rather predictable, and practices are scheduled in advance so that necessary arrangements may be made for transportation.

- **Physicals :**

Each participant must have an approved athletic physical, and evidence of the physical, submitted by the first daily practice (August 9th). Forms to be completed by appropriate health care professionals will be available during our July meetings. If a student underwent a physical for a spring sport, that should suffice. We will simply need evidence of the physical, along with updated emergency cards, athletic responsibility acknowledgement forms, and satisfaction of the other various requirements of our schools and the Ohio High School Athletic Association.

**NOTE FOR PARENTS:**

More detailed information will be forthcoming in our revised parent handbook. The 2010 edition is scheduled to be available for distribution at our parents meeting in July. In the meantime, we are always available to answer your questions and address your concerns.

**Website:**

Visit our website at [mariettaxc.com](http://mariettaxc.com). Our schedules and training information are available there. You will also enjoy photographs of our cross country runners in action.

**Coaches:**
